Of Address in Re ly to the Speech

His Honor the Lieutenant Covernor.

MAY IT PLEASE YOUR HONOR :-

We, the Members of the First Legislative Assembly, sitting at ta 'est session thank Your House for Your Henor's gracious Speech.

There are many things referred to by Your Honor on which the country by Your Honor on which the country is this year to be greatly congratulated. The abundant harvest, the success of the ranshing industry, the lines of rail road which during the year either have, been completed or are in course of construction, the opening of new markets, the extension of trade, and increased general prosperity of the Territories; are all matters for sincere congratis; tion. Your Honor mentions the steps whice have been taken to forward imperation into the country, a subject of vital importance, and desires or receppration which has been and always. of vital importance, and desires on co-operation which has been and always will be given, although we regret to say our means are of the smallest. Your Honor will doubtless remember 'to verrly appears we have made to the control of the protection of the protection of the protection of the Legal Profession.

By the disallewance of the first, it Dominion tovernment for assistance in the Legal Profession.

It is the work of pepulating the many militim acres of the Dominion lands in this would seem that our right to interpret country and the cold response with abich they have been met. The brief and burriet visit of the English dele-

gates through the North West has been as yet the only visible result. Statistics showing that crime has not increased in this country will be gladly received. Inquiries made by individ-ual members in the five Judicial Districts of the country shew that not only are the Territories singularly free from crime, but that in spite of the increase

of streelmine, but in others the means the Session.

Additions to our library were much needed; we egget, however, to say that some few of the books recently process. ed do not commend themselves to the Assembly as usually found in a Legis-lative Library of the small proportions which ours must necessarily be.

The Legislature joins with Your Honor in thanks to the President of the Canadian Pacific Railway for in-migration passes. The work done by many of the applicants has in the past been of the highest quality, a fact which the President must have recognized when he consent d to the continuance

Your Honor's Advisory Council seem
to need some assistance in making the to need some assistance in making the best use of the facilities at their dispos al in this direction.

We regret Your Honor has omitted to mention the scent attention paid by the Ottawa authorities to memorian forwarded to them by the Assembly, the disallowance at Ottawa of certain the disallowance at Ottawa of certain Territorial Ordinances and the un-happy differences which have estated and still exist between an overwhelm-ing majority of the Assembly and Your Honor's Advisory Council. The circumstances of the country

and of the Assembly oblige as from year to year to make representation to the Federal Government on various

expressions used in the Ordinances of this Assembly is questioned. By the disallowance of the second it, would disallowance of the second it, would seen that existing Dominion Statutes and Treaties are not sufficient to protect the Indians without the cooperation of the Assembly, and deabt is even expressed as so whether the Assembly has any right at all to protect the game of the Territories from wanton destruction. The disallowance of crime, but that in spite of the increase of population the Courts shew a less percentage of criminal cases than ever order-in-Council to legislate with rebefore.

The gopher peat has been sensibly similabed in some districts by the use of Civil Jurisliction is subject to many of Civil Jurisliction is subject to many of strychnine, bat in others the means adopted have not worked so well. It will be our duty to make further recommendations to Your Honor during the will be the duty of the Assembly to cheat some of those Ordinations as shees with such slight modifications as

The Assembly regrets that Your Honor has not seen fit to allude to the circumstances which have led to Your Honor's salestion and retention in office ifonor a alexinon and retention in office of an Advisory Cauncil not in accord with, nor possessing the confidence of the output of this Assembly. It appraises us to be necessary to the good graintenant of the country, that the present according to the confidence of control, if any, possessed maintain their present attitude of deligate over the acts of the flatter. by the Legislature over the acts of the Executive should be clearly defined. Having been left without the guidance of Your Henor in this matter, the Assendly can do no less than assume its passed merely because these Member rights to be such as the North West cannot be allowed to introduce it.

The School system of the Territories shows rapid development and Your Honor's statistics on the subject will doubtless prove interesting to the country.
